ABSTRACT:

Composite article (1) comprising a thermoplastic body (2), a melamine-resin decorative paper (3) covering the body (2) on one face, and a textile structure (4) arranged as a bonding interface between the body (2) and the decorative paper (3). In order to manufacture the article (1), the textile structure (4) and the not yet cured decorative paper (3) are bonded, by hot pressing, and the thermoplastic of the body (2) is overinjected onto the textile face of the composite element (3, 4) thus obtained.

Application: for example for the tops of washing machines and dishwashers.
